

Our **TP series** tripods are ideally suited for a variety of test environments and installations. Fiberglass or wooden tripods offer minimum reflections in an EMC Test set up. The **TP-8** is a heavy duty, transportable tripod for outdoor use. It is also useful for reflectors and other antennas which are designed for mounting on a 4½" mast/pipe.

| | TP-1** | TP-5 | TP-6 | TP-8 | TP-9 |
|-------------------------------|-------------|-------------|-------------|-----------|---------------|
| HEIGHT | 21 - 1/2" | 12" - 72" | 34" - 76" | 72" | 32" - 49" |
| WEIGHT (LBS/KG) | 2 / 0.9 | 6.5 / 2.9 | 20 / 9 | 110 / 50 | 55 / 25 |
| LOAD CAPACITY (LBS/KG) | 22 / 10 | 25 / 11 | 40 / 18 | 300 / 135 | 330 / 150 |
| MOUNTING | 1/4-20 stud | 1/4-20 stud | 1/4-20 stud | *** | 1/2-13 Insert |
| PAN/TILT HEAD | N/A | Optional* | Optional | Optional | Optional |
| MATERIAL | Fiberglass | Wood | Metal | Metal | Metal |

* **TP-5** with optional Pan/Tilt head may be ordered as **TP-3**

** For 13" height, order the **TP-2** model

*** 4½" mast/pipe mounting kit or mounting adapters for one or two pan/tilt heads

- Light Duty
- EMC Applications
- Quick Setup
- Dielectric Materials
- Sturdy Construction

- Heavy Duty
- High Wind
- Dishes 6'
- Permanent or Movable Applications

TP-8 with Pan/Tilt

TP-1, 2, 3 AND 5*

- Precision Adjustment
- TP-6/V Vernier Scale Available
- TP-6 Tripod has Elevator Column

- Very Strong
- Quick Setup
- Portable or Semi-Permanent
- Wide Leg Spread for Stability

TP-9 with Pan/Tilt

Pan/Tilt Head for TP-6
