

## LPD-3100-C2756

This is a foldable Log-Periodic antenna and mast system that is ideal for tactical and field communications applications. These are extremely durable antennas that can be deployed many times by military troops in harsh environments. The olive green and black finish is suitable for use in environments found around the world. The complete assembly breaks into three main parts with tethered elements that detach to fold down. The antenna is supplied in two nylon storage bags. An optional manual winch mast can be supplied in a third canvas bag along with a 100-foot long low loss armored coaxial cable.
